Christ Empowered Living

Discover just what Christ meant when he said, "I have come that they may have life, and have it to the full." John 10:10

Some of the issues that block the flow of Christ's power in our lives are identified.

- Why Christians are too easily satisfied
- The three deepest needs of the personality
- How to stay on track in your Christian life no matter what happens
- How to deal with troublesome emotions
- Why we do the things we do
- How God designed our personalities to function
- How to deepen our dependence on God

Ideal for every Christian, both new and mature.

7 Laws For Life – Foundations For Living

Selwyn Hughes considered these 7 Laws of spiritual success to be his legacy to the next generation, and the absolute essential issues to living an effective and successful Christian life.

These 7 laws are more than mere principles. They are the key elements of a successful Christian life and they have such inevitable consequences that they are as reliable as the laws of physics.

In this dynamic seminar you will discover:

- How to tap into the great spiritual laws God has built into the universe
- The one thing above all others that sabotages an effective prayer life
- The four reasons why people give up on God
- What to do when difficult circumstances shatter your faith
- Why in helping others you in turn help yourself
- How to rid your soul of every hurt and bitterness
- Why some people find it difficult to forgive and forget
- The three proven steps to the cultivation of your soul
- Why service for God is only second in importance
- How to overcome dark and depressing doubts
and much more

Designed for every Christian, both new and mature.

Caring By Encouragement

How do I care for others?

Every week we may shake hands with someone who has deep hurts – and never know it, all because we fail to spot the signals that people give out when they are hurt or discouraged.

This powerful seminar will enable you to really care for others and demonstrate the love of Christ to them.

- How to recognize discouraged people and what to say to them
- How to be sensitive without being intrusive
- How to get a reluctant person to open up
- How to show you care
- How to build rapport with a person
- The awesome power of the right words

Ideal for those involved in pastoral care and other Christians seeking to understand how to show God's love to others.

MICK BROOKS is CWR's Chief Executive and Consulting Editor of Every Day With Jesus, and presents a range of seminars and courses. Mick worked closely and travelled with Selwyn Hughes for many years. During that time he was deeply involved in CWR's publishing, training and counseling activities and took overall responsibility for the ministry eight years ago.

His background in both general and psychiatric nursing has given him invaluable experience in many areas of interpersonal skills and relationships.

Mick studied theology in the USA, from where he moved to the West Indies to serve as Dean of Students at a Bible School.

LYNETTE BROOKS is the Director of Publishing at CWR, although her many roles also include editing *Topz*, leading the Preparation for Marriage course at Waverley with Mick and teaching on the Ministry to Women team in the UK and internationally, as well as managing the publishing ministry at CWR.
